

How much oil does a Suzuki performance 4 need?

Lubrication-wise, it requires 2.2 L/2.3 US quarts (2.3 L/2.4 US quarts - filter change; 2.5 L/2.6 US quarts - overhaul) of SAE 10W-40 Suzuki Performance 4 Motor Oil with an API grade of SJ+meeting JASO T903 MA/MB standards.

Why should you buy a Suzuki 4 stroke?

Suzuki's advanced four-stroke technologies deliver highly efficient operation and lower emissions.

How does Suzuki fuel injection work?

Suzuki's class-leading fuel injection smooths power output, especially in the mid-to-high range, and provides excellent cold starting. The system uses 3D maps for optimum ignition, creating responsive yet environmentally compliant performance.

What is the energy storage capacity of a gravity piston?

EP is the energy stored in the gravity piston. The compressed air part relies on the air compression and expansion for energy conversion, and its energy storage capacity can be expressed as: $(11) E_A = i_A \cdot V_1 \cdot V_2 \cdot P \cdot dV$ where i_A is the circulation efficiency of isothermal compressed air. V_1 is the volume of air before compression.

What is the energy storage capacity of a rock piston?

The project information shows that the energy storage capacity can be selected between 1 and 10 GWh, and when the diameter of the rock piston reaches 100 m, 200 m, and 250 m, 1 GWh, 3 GWh, and 8 GWh of energy storage capacity can be obtained.

What is the idle speed on a Suzuki Marine?

If to port or starboard. Page 24 The idle speed has been factory adjusted between 650 - 750 r/min in neutral. NOTE: If idle speed cannot be set within the specified range, contact your authorized Suzuki Marine Dealer. 3. Make sure that remote control handle is in SETTING OF TILT UPPER LIMIT POSITION "NEUTRAL". Page 25 V WARNING 5.
